

Hellomage

Module Name: HelloMage_DeleteInvoice

Version: 1.0.0

Release Date: 06/12/2020

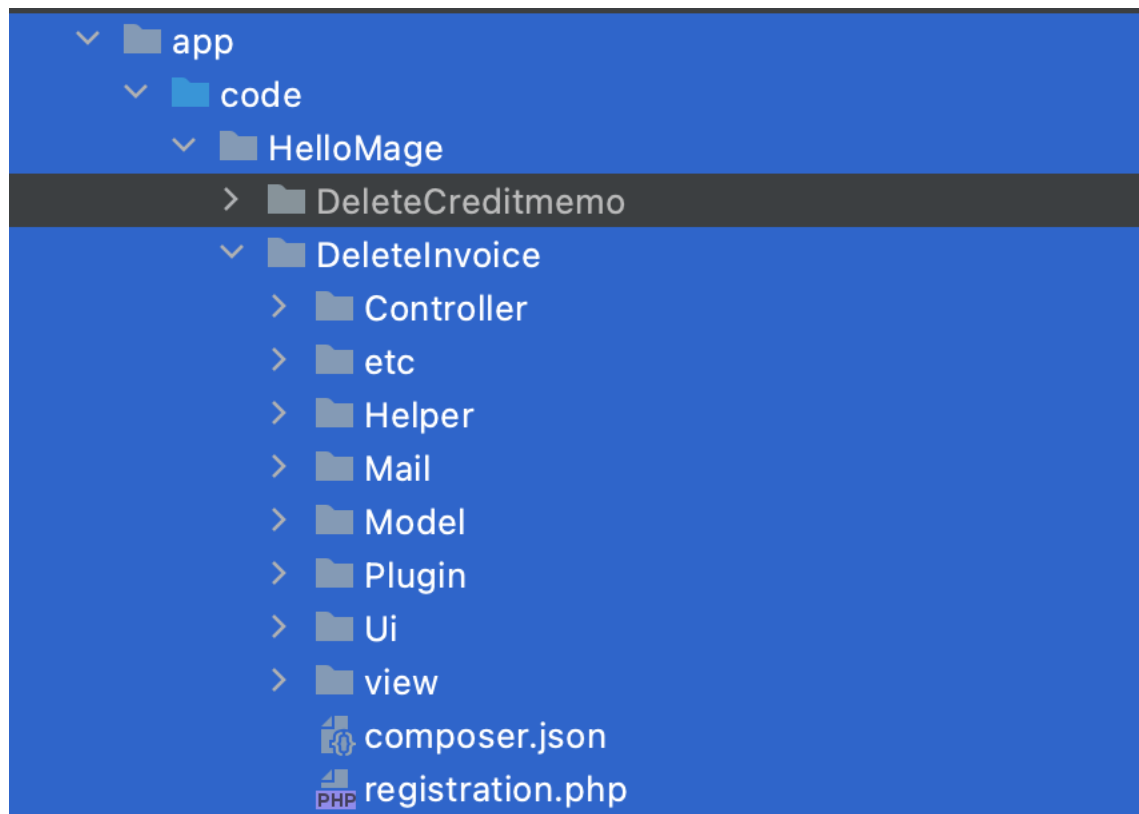

Developer: developer@hellomage.com

Document: Setup Guide

Installation Instructions

1. Extract the ZIP
2. Make sure if you have a folder names "**HelloMage**" inside your "**app/code**" directory. If not, please create the folder "**HelloMage**"
3. Create a folder called **DeleteInvoice** inside **HelloMage**
4. Copy all unzipped content inside **DeleteInvoice**

Below is how the folder structure should look and make sure you follow the same.

5. Run the Magento 2 deployment commands.

If your deployment mode is set as developer, execute the following

```
rm -rf var/di/* var/generation/* var/cache/* var/log/* var/page_cache/*  
var/session/* var/view_preprocessed/* generated/code/*  
generated/metadata/* pub/static/*
```

```
php bin/magento setup:upgrade  
php bin/magento setup:di:compile
```

If your deployment mode is set as production, execute the following.

```
bin/magento setup:upgrade  
bin/magento deploy:mode:set production
```
